```c
#include <stdio.h>

int countSetBits(int n) {
    int count = 0;
    while (n > 0) {
        count += n & 1;
        n >>= 1;
    }
    return count;
}

int main() {
    int T, N;
    scanf("%d", &T);

    while (T--) {
        scanf("%d", &N);
        printf("%d\n", countSetBits(N) - 1);
    }

    return 0;
}
```
